

Memory Star

What you need

Felt

Ribbon (20cm long)

Needle and embroidery thread (you could use sewing thread if you don't have any embroidery thread)

Sequins, beads etc for decorating your star

How to make

1. Using the star template, cut out 2 star shapes from felt.
2. Decorate one side of each star with sequins, beads, stitching etc – whatever you like to make your star colourful and sparkley.
3. Put the 2 felt stars together (decorated sides facing out) with the ribbon (folded in half) sandwiched between the 2 layers (as shown above).
4. Sew around the edges of the stars (as shown above). You may find it easier to pin everything together first before you start to sew.
5. Your star is now ready to be hung up. You can put messages and small objects inside it – anything from memories of your special person, to little trinkets that are special to you.
